Please note that this Cross Reference is to be construed only as a guide and under any circumstances not as a roster of exact equivalents of Tulsion resins. It is very likely that under different operating conditions customers' requirements may be completely different. Therefore it is suggested that for specific requirements, the customers should get in touch with Thermax Chemical Division with relevant details, to have most appropriate resins for their applications. Thermax Limited will not be responsible for any wrong selection made by a customer without seeking its advice.
